

DRUM DUMPER EXZEL

Semi-automatic dump system for liquid juice drums.

DEVICE APPLICATION

Semiautomatic system dump drum that contain in liquid state juice and pumping the product discharged until the next process. Possibility of coupling a bags drainer.

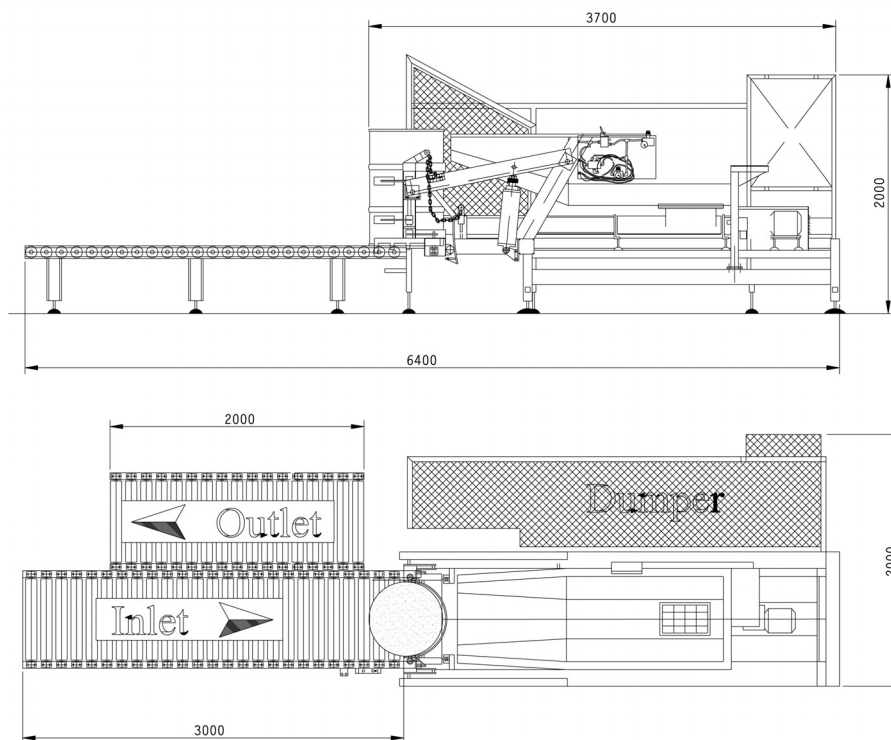

DEVICE DESIGN

Control of the process via a lever. Pneumatic system with double lifting. Fixation system of the drum by pneumatic clamps. Eccentric screw volumetric pump for evacuating the product. Pneumatic active safety system. CIP spray cleaning system. Air compressor coupling option. Side platform to control and drive with skid steps made of stainless steel . Security fence made of stainless steel. Coupling option motorized roller belt for transportation, entry and exit of the drums in automatic mode.

TECHNICAL INFORMATION

| | | |
|---------------------|-------|---------------------------------|
| Processing capacity | ————— | 20 - 30 drums/h |
| Drums type | ————— | Opentop cylindrical and conical |
| Drums capacity | ————— | 200 lts |
| Hopper capacity | ————— | 600 lts |
| CIP Conection | ————— | Female thread G 3/4" |
| Pneumatic conection | ————— | Fast fitting Ø10 |
| Power | ————— | Final Lay-out |
| Weight | ————— | XX kgs (without bomb) |

DIMENSIONS

PRODUCTS

Design, construction, installation, starting and maintaining of machines, extraction facilities and juice processing, fully contrasted, reliable and safe, adapted to the needs of customers through constant innovation based on our experience, incorporating new materials and technologies to our products.

SERVICES

Technical service, application spare parts, technical information, training.
