

AccuTrak VPE Ultrasonic Leak Detectors

■ Product description

AccuTrak VPE is Featuring 3rd Generation Ultrasonic Technology to Find and Locate Leaks. Featuring ALL-NEW internal circuitry,the patented AccuTrak VPE stands out above all other Ultrasonic Instruments in its class.With even greater sensitivity and a number of new features unique to the VPE.

It's extremely sensitive to the ultrasonic sound of turbulent gas leak. Using a technology called "heterodyning" the instrument translates ultrasound to a lower frequency which can be heard. AccuTrak is so sensitive you can actually hear the blink of an eye, yet most background noise will not interfere with detection accuracy.
