

LG180 Sealant Tape

■ Product description

LG180 is a low/medium temperature sealant tape used for vacuum bag compaction. It can be used in oven and autoclave.

LG180 exhibits good tack and is a good selection for cures at 120/150°C (248/302 °F) under 2-3 bars (30-50 psi) pressure. Material compatible with most laminate (including composites tools) and film materials.

For optimum results, tape must be allowed to cool below 35°C (95 °F) before stripping from mold surface.

■ PROPERTIES

Maximum Use Temperature	356 °F (180°C)
Colour	Gray
Solids	100%
Flammability	Non flammable

■ AVAILABILITY&PACKAGING

Standard Size	12.5mm*3.5mm*10m (1/2"x.125"x33')
Standard Box Contents	20 Rolls
Also Available In Cord	20 Boxes In One Pallet

■ Notes

Storage: In original packaging at temperature between 5°C --25°C

Shelf life: 12months

Non toxic, non irritant, and non injurious to skin
