

LVBF315Y Vacuum Bagging Film

■ Product description

LVBF 315Y is a kind of high elongation vacuum bagging film, the maximum use temperature can reach 315°C . It is suited for many kinds of resin, and has a good property of resistant to corrosion, it is an ideal material for high temperature cures.

■ PROPERTIES

Maximum Use Temperature	599 °F (315°C)
Colour	ecru
Tensile Strength(ASTM D882)	MD: 30MPa
	TD: 30MPa
Elongation(ASTM D882)	380%
	400%
Planar density	150g/m ²

■ AVAILABILITY&PACKAGING

Standard Thickness	75 μ m(0.003")
Standard Widths	1.422m(54")
Formats	Sheet

■ Notes

Stored in a cool and dry place, avoid direct sunlight.

LVF315Y vacuum bag film roll packing, external demand wrapped with polyethylene membrane; best stored in 65%RH, about 20 degrees Celsius in the environment.
