

Low Temperature Rubber Hose

■ Product description

High standard product made of rubber which is low cost material and suitable for vacuum process under room temperature.

High elasticity, pressurization, resistance to high vacuum and twist without broken. Maximum operation temperature is 80°C (176 °F) .

■ PROPERTIES

Operating Temperature	176°F (80°C)
Threaded Ends	Male Thread 1/4" BSP standard
Inner Diameter	6.4mm(0.252")

■ Instruction

Every length is available, components also supplied.

■ Notes

No other special requirement.
