

R60AD Nylon 66 Peel Ply Coated

■ Product description

R60AD is a nylon peel ply coated on one side with a tacky adhesive layer(epoxy resin). It can provide good peel property and good adhesion performance that can be used with most epoxy and polyester resin.

■ PROPERTIES

Material	Nylon
Maximum Use Temperature	392°F (200°C)
Planar Density	85g/m ²
Color	White
Tensile Strength (ISO 13934-1)	MD: 700 N/50mm
	TD: 600 N/50mm
Release agent	None

■ AVAILABILITY&PACKAGING

Standard Size	1.52m*100m (54" x 100 yard) /roll
	Maximum Width: 1.52m (Other size on request)

■ Notes

R60AD has good stripping quality, heat resistance and can be stuck on the surface of composite materials or metal parts; Without any release agent, recommend being used in curing process below 200°C where the appearance has special demand.

Storage: R60AD is packed in roll with release paper. Recommend being packed in polyethylene bag and wrapped in clean cardboard sleeve or any other materials which have the same function, frozen stored in a clean environment about -5°C—-25°C .

Shelf life: 1 year.
