

A close-up, high-speed photograph of a glass of beer. The beer is a vibrant golden-orange color, and a splash of liquid is captured mid-air, creating a dynamic and energetic scene. Numerous small bubbles are visible throughout the liquid, adding to the texture and movement. The background is a bright, clean white, which makes the beer's color stand out.

# COMPANY PROFILE

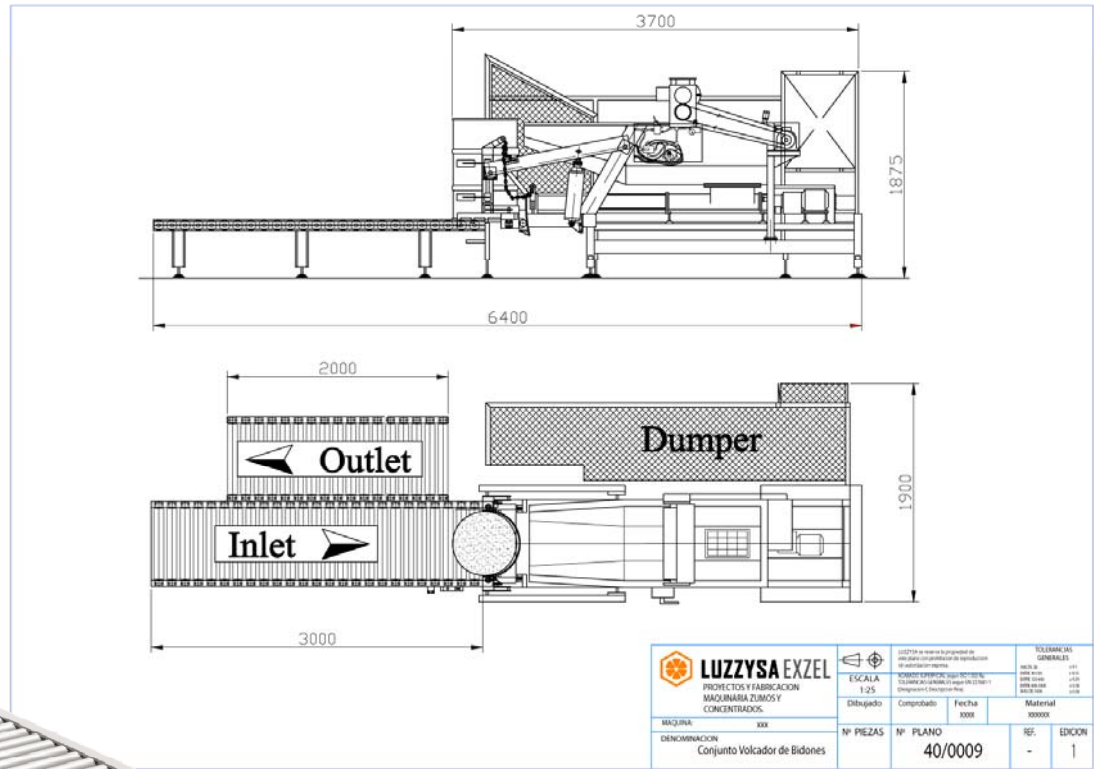

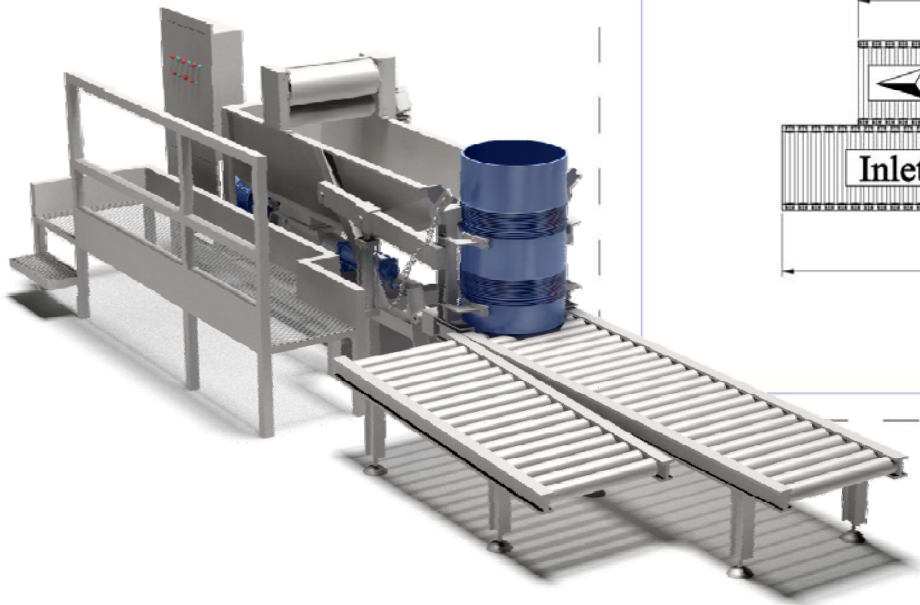

**LUZZYSA** EXZEL

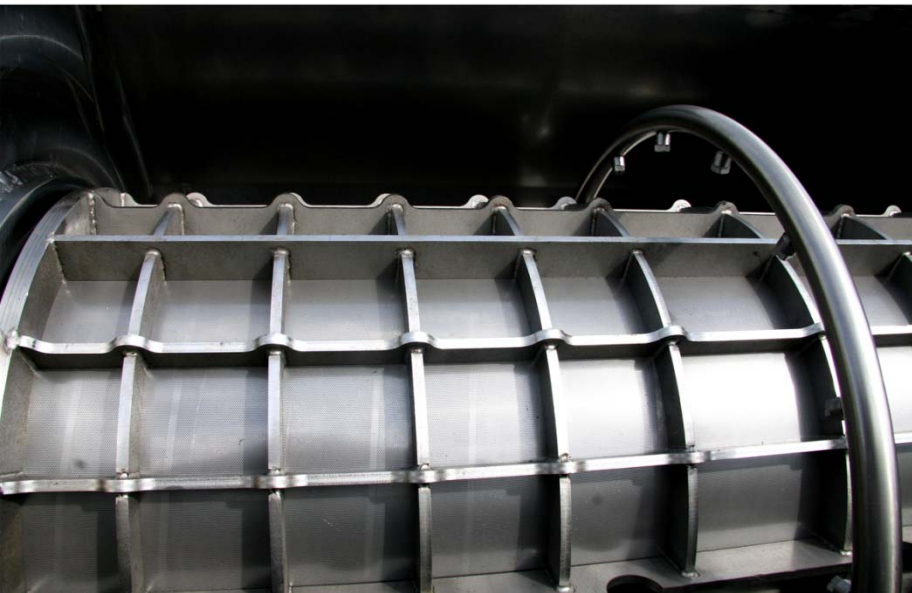

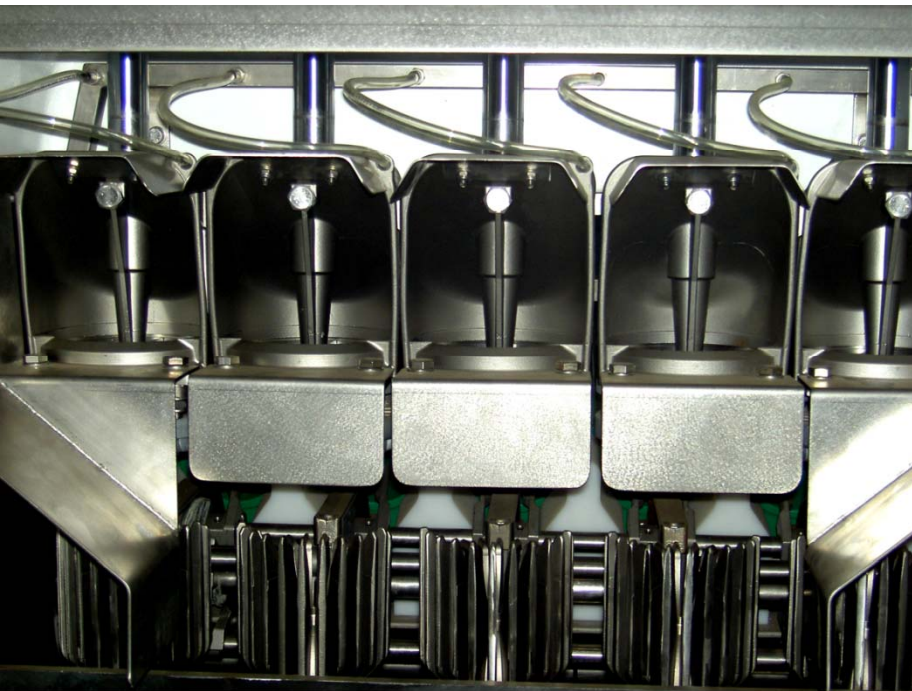

**LUZZYSA** Since 1975 designs, manufactures, installs and provides technical support to juice extraction and juice processing lines.

**LUZZYSA is an efficient partner for actual and future worldwide customers.**

**Washers and sizers**

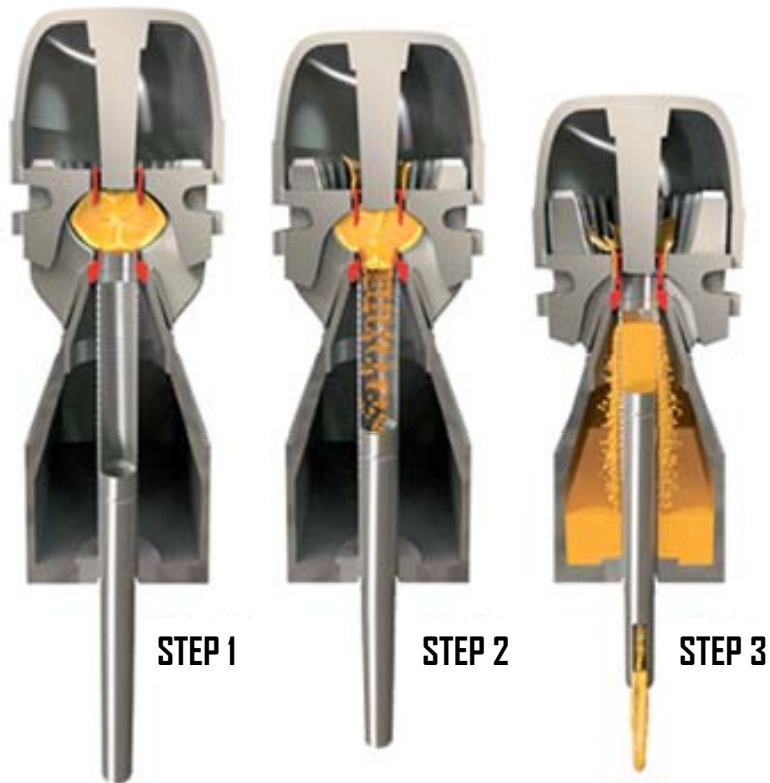

**Evaporators**

**Finishers**

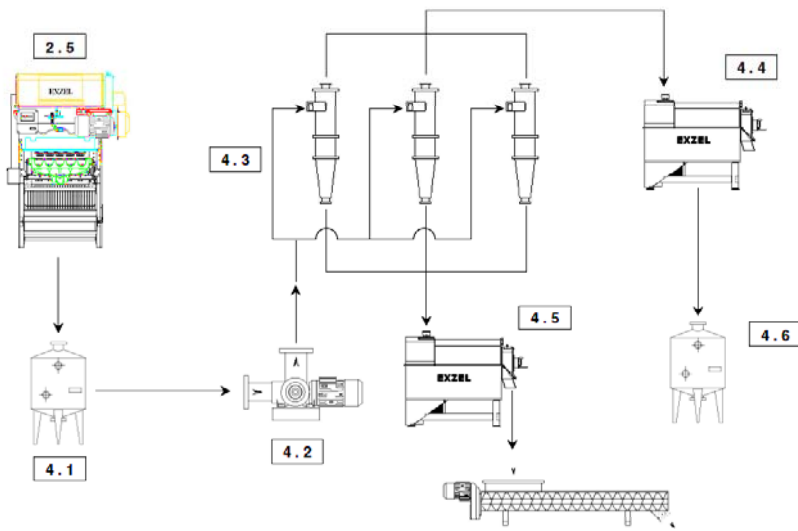

# THE BEST TECHNOLOGY FOR THE BEST JUICE

JUICE EXTRACTION PROCESS | INSTANTANEOUS SEPARATION METHOD

# PRODUCTS AND SERVICES

## Services offered to our customers begin with:

- a specific and detailed proposal for the machinery, set up and lay-out we think is the best for the customer
- according to the actual needs and possible growth in the short time
- evaluating alternatives together with the customer

**In our company,  
we:**

- **manufacture,**
- **assembly and**
- **test,**

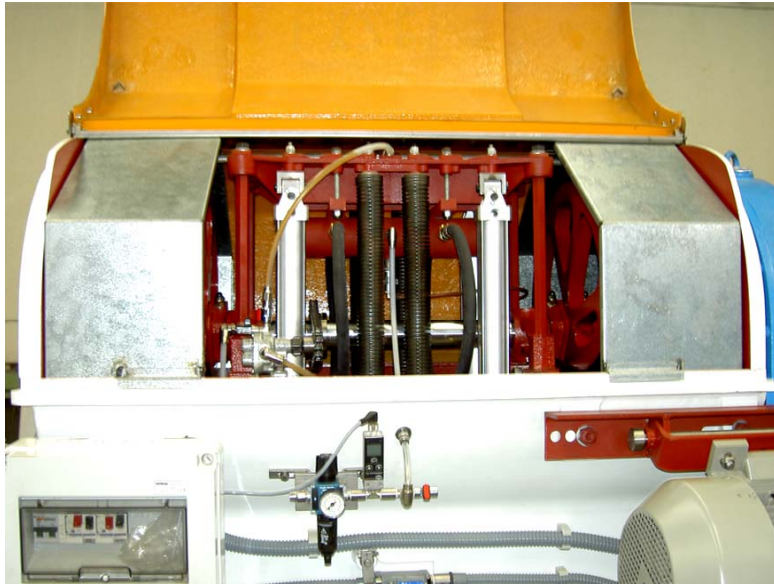

**machinery and production lines before sending the  
equipment for final installation in our customer  
facilities.**

**After final  
quality control**

**LUZZYSA** sends, installs and carries out final testing tuning, as well as proper training of technical staff.

**Special mention  
deserves automation,  
safety and control  
elements incorporated  
into the equipments  
and production lines.**

# Relationship with our customers continues through our technical support service:

- Resolving customers' doubts and questions to give the best advice for the use of the machinery according to changing processing needs
- A 24 hours-day dispatch service for immediate sending of spare parts required in case of wear or damage of the machinery
- Carrying out routine maintenance controls to check proper performance of the machinery

**And we carry out all this work just thinking once and another what is the best we can do for our customers.**

**How can we satisfy his needs for citrus processing?**

**How can we help and go further?**

**OUR SUCCESS ONLY WILL BE POSSIBLE IF OUR CUSTOMERS SUCCEED.  
SO THE ONLY WAY IS OUR CUSTOMERS' WAY.**
